

Outdoor Musical Instruments

Catalogue 2016

www.acousticarts.org.uk

Our outdoor musical instruments are supplied as self-install items and come complete with a solid timber frame that can be fitted directly into the ground. There are two ranges to choose from:

The pre-assembled **Sound Sculpture** models combine an ultra rugged build with an artistic design making them a popular choice for museums, gardens and public spaces.

The **Playground Percussion** models offer the same level of musical quality in a regular, self-assemble frame. Recommended for schools and other managed settings.

Why choose Acoustic Arts?

high-quality - resonant, standard tuned, fully functioning musical instruments

sculptural - visually appealing, artist designed, wood and steel construction

long-lasting - hardwearing, weatherproof, industrial- and marine-grade components

accessible - permanent, ergonomic resource for spontaneous play and self-expression

interactive - large scale, standalone designs for all-round access, multiple players

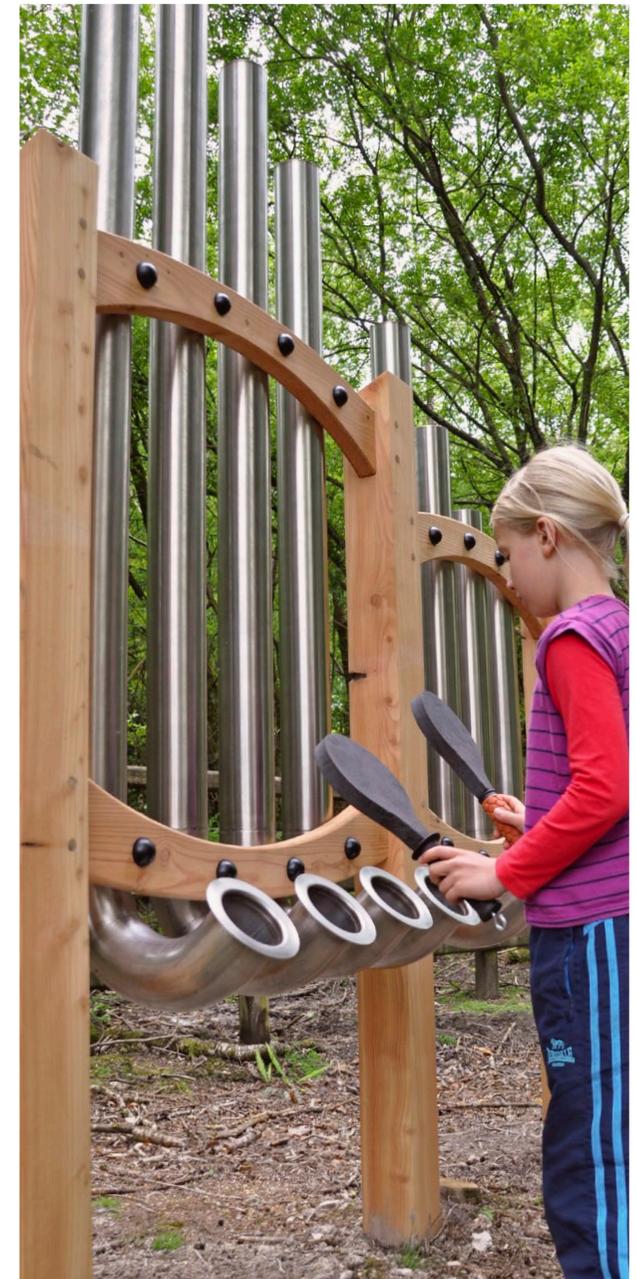

sustainable - naturally durable, certified materials, low maintenance, replaceable parts

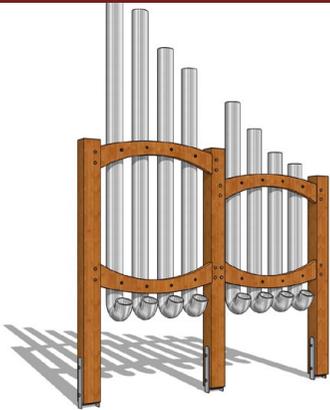

easy-install - pre-assembled and pre-drilled frames, all fixings and plans provided

convenient - door to door delivery with dedicated courier, 'no quibble' returns policy

reliable - established company with substantial educational and musical expertise

safe - low risk or EN1176 compliant designs

Price

£2995/£895 + VAT

Installation

Frames are made from naturally durable English timber which can be concreted straight into the ground as shown in the diagram.

To provide additional protection and improve lifespan in particularly damp, unstable or high-traffic environments we offer the following extra measures:

Post Sleeves

A protective layer of bitumen pre-bonded to the base of the post where it is most susceptible to decay. Simple and cost-effective. Can potentially double the life of timber posts.

Price

£25 + VAT per post

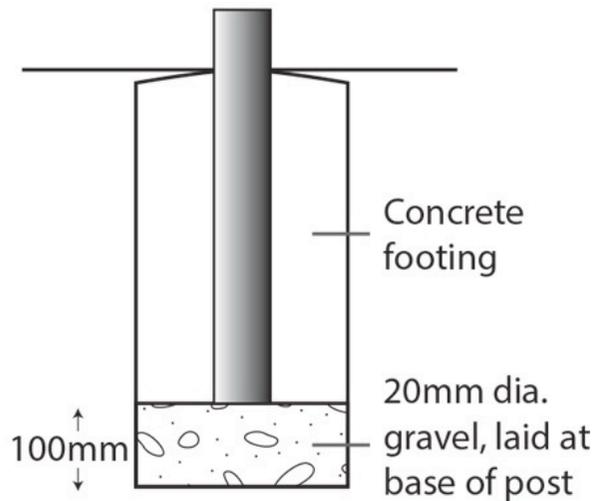

Post Anchors

Heavy-duty galvanised steel brackets bolted to the base of the post and concreted into the ground. Adds to the visual impact of the structure and totally eliminates contact between posts and ground.

Price

£75 + VAT per anchor

For further details please contact info@acousticarts.org.uk or call 0117 935 2034.

Placing an Order

To place an order, please contact us at info@acousticarts.org.uk or call **0117 935 2034** for a full quote including delivery. A deposit may be required.

Delivery

UK orders are usually dispatched within 4-6 weeks. Delivery is charged at cost.

Installation

Detailed installation plans are provided in advance. Further advice is available on our website and we are happy to answer any queries by phone or email.

Maintenance

A comprehensive maintenance programme is included in the operations manual provided with every purchase. We also offer an at cost refurbishment service for all our products.

Guarantee

We operate a 'no quibble' returns policy and will replace any failed parts within 3 years provided installation, operation and maintenance have been carried out in accordance with instructions.

Terms and Conditions

Full details of our terms and conditions can be found on our website.
